

# CESTA OD SEMÍNKA K MÁKŮM

Na obrázcích se šipkami si prohlédni, jak roste mák ze semínka až po makovici, ve které se ukrývají nová semena.

V bludišti rostlinek pak spojuj čarou jednotlivé fáze růstu, jak jdou za sebou. Po makovici následuje znovu semínko a cesta pokračuje dál, dokud se nedostaneš k mákům v rámečku. Vydej se na cestu ☺

The grid contains 100 small illustrations of poppy plants at various stages of growth. A path is to be traced from a starting point (a square with a dot) to a goal (a square with a group of flowers). The path starts at (1,1) and ends at (4,8).
